

Nu-Tec Machine Shop

API Spec 7 & ISO 9001:2008 Certified

www.nutecinc.com

Nu-Tec Machine specializes in manufacturing various types of oilfield service equipment and products. Nu-Tec Machine has been operating for fifteen years and is capable of machining Crossover subs, Side-Entry subs with Integral Weco, Surface and Sub-Sea BOP Test Equipment, Integral Pup Joints, Well-Head Flange Adapters, Frac Heads, Canfield Bushing, Bit Subs, Washpipe Top Subs and Shoes, Washpipe Bushings, Cutlip Subs, Drain subs and much more.

Nu-Tec is equipped with a wide range of machines from 13 $\frac{1}{8}$ " Hollow Spindle with 33' centers to NC milling/threading machine capable of machining parts up to 80" in length. Nu-Tec is also equipped with a digital makeup/breakout machine capable of 35,000 ft lb torque. Nu-Tec Machine is capable of performing high pressure hydrostatic testing up to 22,500 PSI.

Nu-Tec Machine can quote all connections – API, Grant Pride Co, Hydril, Vam, BTS and most other connections available on the market today. Nu-Tec has a great working relationship with vendors that are licensed to cut specialty connections.

Nu-Tec offers in-house designing for your project-specific applications and specialized products. Our design personnel can submit a machine-detailed drawing along with the quote for review and approval prior to order placement.

Nu-Tec Machine's relationship with our customers is a priority and built off trust and complete satisfaction thus ensuring that we will do whatever it takes to meet your delivery requirements.
